

INTERSTATE-McBEE

Serving the diesel and natural gas industry for over 60 years.

New Product Release – December 2008

Now available from Interstate McBee:

A-MCIF23532562 In-frame Engine Kit

The application of this kit is for the popular 12.7 liter Detroit Diesel® DDECIV Series 60® automotive engine with articulated steel pistons. This kit includes rod bearings, main bearings, thrust washers, cylinder head gasket set, oil pan seal, oil tube gaskets and new cylinder kits. Each cylinder kit is comprised of all new components including Interstate-McBee's patented cylinder liner. The Interstate-McBee liner is engineered with unique cooling grooves at the top liner cooling area under the liner flange that can improve the cooling capacity at this critical location. Contact one of our parts professionals with the engine serial number to see if this kit is correct for your application. Be sure to ask about Interstate McBee rebuilt injectors too for your application.

Listed below are some additional parts available from Interstate-McBee for this popular engine series.

A-MCIFS60-4S – in-frame kit same as above minus piston crowns.

MCB60HBK – head bolt & washer kit.

MCB60BSH – bushing for the closed end connecting rod used with the articulated steel piston.

A-8929430 – bull gear bearing assembly.

New Product Release – December 2008

Now available from Interstate McBee:

IF3804696 In-frame Engine Kit OH3804696 Overhaul Engine Kit

The application of these kits is the popular 10 liter Cummins® GLTA-10 natural gas fueled engines. The in-frame kit includes cylinder kits, rod bearings, main bearings, thrust washers, upper engine gasket set, and oil pan gasket. The overhaul kit includes all the items of the in-frame kit plus a lower engine gasket set. The pistons contained in these kits are of the latest design incorporating rectangular fire ring grooves for improved engine life. These engines are commonly found in refuse trucks and transit bus applications. Contact one of the parts professionals at Interstate McBee with the engine serial number to see if this kit is correct for your application.

Replacement Injector tubes – ISX Engines

We now offer replacement injector tubes for the Cummins® ISX / Signature 600 engine applications. These replacement tubes are manufactured from stainless steel and are no longer available from the OEM. These Interstate McBee replacement tubes allow for repair of these popular cylinder heads. We also have external o-ring kits available for the injector for these applications.

New! Cummins® N14 CPL reference wall chart now available from Interstate-McBee

This handy 22½" x 16½" wall chart or counter mat is now available. This numeric CPL listing easily identifies the N14 model as well as the cylinder kit components, in-frame engine kit part number, fuel injector part number and turbocharger part number. Contact your friendly Interstate-McBee branch location or ask your sales representative for yours today.

The following items have been added since the previous price sheet. Contact Interstate McBee for details.

Part Number	Description	Application
M-3016627	Alternator	
M-3678536	Seal, Rectangular Ring	ISX
M-3680873	Tube, Injector	ISX
M-3680883	Collet, valve	ISX
M-3802924	Valve Kit, Intake	ISB
M-3925343	Seal Kit,	Mid Range
M-3804694	Ring Set	GL10
M-3804695	Piston Kit	GL10
M-3804696	Cylinder Kit	GL10
MCIF3804696	Inframe Kit	GL10
MCOH3804696	Overhaul Kit	GL10
M-4009221	Liner, Oversize	KT19
